Deeply nurturing balm for moments when your skin needs kindness

Ingredients

Grapeseed Oil
Coconut Oil
Beeswax
Vitamin E Oil
Dried Calendula Blossoms
Dried Rosemary
Dried St John's Wort
Rosemary Essential Oil
Lavender Essential Oil

Targeted Skin Restoration. Naturally Refined.

Our **Healing Balm** is a meticulously crafted botanical formulation designed to support the skin's natural recovery process. Combining clinically respected plant oils with traditionally used medicinal herbs, this balm delivers intensive nourishment, protection, and comfort for dry, sensitive, or stressed skin. Formulated in small batches and free from unnecessary additives, it offers effective care with a refined sensory experience.

Why It Works

At the heart of this balm is a synergistic blend of lightweight carrier oils, protective waxes, and carefully selected botanicals—chosen for their ability to restore, calm, and protect the skin barrier.

Grapeseed Oil provides fast-absorbing hydration rich in antioxidants, helping to support elasticity and skin resilience without heaviness.

Coconut Oil replenishes moisture and reinforces the skin's natural barrier, restoring softness to dry or compromised areas.

Beeswax forms a breathable protective layer, sealing in hydration while shielding the skin from environmental stressors during healing.

Vitamin E Oil, a powerful antioxidant, supports skin renewal and helps protect against oxidative stress, promoting smoother, healthier-looking skin.

Botanical Intelligence

This balm is infused with time-honoured medicinal herbs traditionally used in therapeutic skin preparations:

Calendula Blossoms to calm, soothe, and support sensitive or irritated skin

Lavender to balance and comfort while promoting skin relaxation

Rosemary to invigorate the skin and provide antioxidant support

St John's Wort to support natural skin recovery and comfort stressed areas

These botanicals are slowly infused to extract their beneficial compounds, ensuring potency and efficacy in every application.

Ingredient-Specific Warnings & Considerations

Grapeseed Oil

Generally well tolerated
Caution for individuals
with known grape allergies (rare)

Coconut Oil

May be comedogenic for acne-prone or congested skin
Not ideal for facial use on oily or breakout-prone skin types

Beeswax

Not suitable for individuals with bee or pollen allergies
Animal-derived ingredient

Vitamin E (Tocopherol)

May cause irritation in very sensitive or compromised skin
Rare contact dermatitis reported with high concentrations

Calendula (Dried Calendula Blossoms)

Belongs to the Asteraceae (daisy) family
Individuals allergic to chamomile, ragweed, or daisies may experience sensitivity

Rosemary (Dried Rosemary & Essential Oil)

Can be stimulating to the skin at higher concentrations
Essential oil may cause irritation on sensitive skin
Not recommended during pregnancy unless advised by a healthcare professional
Avoid use on very young children

Lavender (Dried Lavender & Essential Oil)

Generally well tolerated
Essential oil may cause sensitivity in some individuals with hormone-sensitive conditions

St John's Wort (Hypericum perforatum)

May increase photosensitivity (sensitivity to sunlight)
Avoid sun exposure on treated areas
Not recommended during pregnancy or breastfeeding
